Thanks Ken. I see you did a lot of editing. Hopefully it will be easier to review for q.4, since I asked the panel members to make a lot of changes for response to q.4.2.

I made an error myself on response to q.5.4, so I made a minor edit on page 83, response to q 5.4 of the attached file. In the paragraph that started with " The DRE was not clear in the presentation...", I deleted "time since first exposure". You can see it in track change. Actually the only place I see "time since first exposure" used in risk calculations was on pg 136 of the DRE to calculate Q for mesothelioma, but not lung cancer.

Diana

Diana,

Copy to you in case I have computer failure. Added KP: to be beginning of all my comments.  
Ken Portier
